June Quarter and YTD 2020 Activities Report

The Business continues to deliver its services as cost effectively as possible. During the quarter approximately 10% of staff were made redundant after a review of operations. Under present circumstances the current structure is considered sustainable for the remainder of 2020. A return to previous revenue levels is subject to ongoing actions and reactions to Covid-19.

The positive cash flow of \$1M for the June quarter and \$153k for the first half of 2020 reflects the disciplines on cost control in combination with Job Keeper payments.

There were no material changes to the business in the June Quarter. Turnover decreased slightly due to impacts of Covid-19 on some Tempo clients.

Debtor collection was improved in the Electrical Maintenance business and this together with improved productivity saw its cash position maintained despite lower turnover levels.

The Construction and Engineering business has been successful in partially replacing previous turnover with a new solar balance of plant project.

Tempo will continue to monitor the business environment and will make further changes if required. Payments to Related Parties of \$126,000, as shown in the 4C report at section 6.1, is made up of salaries to all Executive Directors plus Director Fees for all Non-Executive Directors.
